SPYDA 1250 CEILING FAN

Ventair's all new True Spin Technology™ means no balancing is required and allows the quietest of operation while maintaining optimum air circulation. The combination of our True Spin Technology™ and aerodynamic blade design has been crafted to produce an excellent power to performance ratio. This means more air movement per watt of power consumption which translates directly into energy savings for the consumer. The Spyda Ceiling fan has been specifically designed to last in covered outdoor areas and is built using longer lasting, corrosion resistant materials.

SMOKE ALARMS

Clipsal 240V Photoelectric Smoke Alarm + 9V Battery Backup

Single Storey homes only with ceiling access

"Since 1 January 2017 legislation has specified the type, positioning, and interconnectedness of smoke alarms for Queensland homes. All these are critical factors for an early warning and quick escape during a house fire. Photoelectric smoke alarms see smoke and will alert you early, so you can escape. Interconnected alarms will alert you no matter where you are, or where the fire starts. Additionally, alarms should also be hard-wired to the 240v power supply or powered by a non-removable 10 year battery."

OPUS ONE STEREO BLUETOOTH CEILING SPEAKERS 6.5

Supply and Install $679

This Bluetooth active ceiling speaker system offers instant audio streaming from your smartphone, tablet or laptop with stunning audio reproduction. Built to enjoy the best content from your favourite music streaming service, app or podcast player. Bluetooth 5.0 technology offers superb audio performance and range. Each speaker pair has an in-built high performance 2x30W RMS amplifier which provides plenty of volume for your kitchen, study, family room or dining area. The ideal way to add permanent wireless sound to any room in the house. A modern, low profile finish is provided by frameless magnetic fit grilles. The speakers also feature Additional Stereo RCA input (for aux amplifier input). Includes power supply. Sold in pairs.

Features

- 2x30 Watts RMS
- 165mm (6.5") Woofer
- Silk Dome Tweeter
- Infra-red remote control adjustment
- Bluetooth 5.0
- Excellent range (up to 30m) & clarity.
- DIY installation.
- Additional Stereo RCA input (for aux amplifier input)

SMART WIFI DOORBELL

Answer your doorbell from anywhere from your phone. Video, two-way audio and built-in motion sensors allow you to know who's at the front door and detect any movement on your property, triggering alerts to your phone 24/7. Full HD video 1080P, 166° wide viewing angle. Delivers high resolution video. Two-way audio allows you to hear and speak through the BrilliantSmart app remotely. Built-in infra-red night vision, automatically activating the infra-red filter at night (day/night modes). You can press record direct to your phone by either screen shot or video recording. Durable construction and IP44 weather supports up to 64GB SD card. Recording is motion activated (card not included). It uses low power and includes 2 rechargeable lithium batteries.

SURGE PROTECTION

Upgrade your Switchboard

Surge protection strips offer limited protection to connected devices. Items not compatible with plug strips such as washers, dryers, refrigerators, stoves, and lighting can be protected with a Clipsal Surge Protective Device.

Features and benefits:

Helps to provide peace of mind to home owner by providing surge protection for whole house

SWITCHBOARDS

"Regardless of whether you own or rent, you should consider having safety switches installed on all circuits. Safety switches protect you, your family and anyone visiting the property from electric shock.
The risk is real. One safety switch may not be enough."

Upgrade your Switchboard

Safety Switches from $129 per circuit
